Getting ready for your walk

Be sure to wear sturdy shoes and appropriate clothing, long sleeve shirt and pants are best.

Stay hydrated and sunscreened up :)

Be aware that you may see a snake and if you have a dog be sure to check them for ticks upon your return.

OUR TRACKS

Walking track 1

Difficulty: Moderate, Challenging in parts

Take a stroll through the paddocks taking in the magnificent views down the Valley before ducking into a gully of open rainforest. Crossing over a creek blanketed Maiden Hair ferns you will wind back up through tunnels of Coachwood saplings and be surrounded by pin straight Southern Blue Gums.

Walking track 2

Difficulty: Easy

This track is an easier walk through the paddocks and along formed roads, there are however some steep areas.

Take pause to look down at the amazing variety of small herbaceous plants living beneath your shoes and marvel at the world we touch with every footstep.

Walking track 3

Difficulty: Moderate

Start out by walking through our conservation area where we are revegetating a paddock aiming to increase habitat connectivity in the Valley.

Dip over into the South-western facing gullies and be surrounded by soft lime green ferns. As you emerge from the moist rainforest gully you will find yourself on the fringes of the forest and in a healthy example of grassy eucalyptus woodland.
